Poor Satisfactory Good Very Good **Excellent**

My overall experience with my individual therapist was:

Poor Satisfactory Good Very Good **Excellent**

I **would** **would not** recommend Back To Health

Describe your overall experience with Back To Health

Patricia is a wonderful therapist who understands that therapy is not only physical, but mental also. She continuously encouraged me with her patience, smile, prodding and explanation. Patricia seemed so engaged that I wanted to keep up with her and never disappoint her. She seemed very sincere, always going the extra mile in whatever she did for me. I also wanted to comment on the overall atmosphere of the office. From day one when I walked in to the office, everyone greeted me with such a warm hello, as well as saying good-bye when I left after therapy. In a nutshell, it was a total experience. I felt so good everytime I left therapy and would recommend your place to anyone who needs rehab.
