

### Patient Satisfaction Survey

Patient Name: WILLIAM KELLY

Therapist: MARILYN KING

Please circle one:

Having individualized, personalized therapy at our clinic was:

Not Helpful      Somewhat Helpful      Helpful      Very Helpful      **Extremely Helpful**

My improvement since I started Physical and/or Occupational Therapy was:

Poor      Satisfactory      Good      **Very Good**      Excellent

My overall experience with my individual therapist was:

Poor      Satisfactory      Good      Very Good      **Excellent**

I **would** **would not** recommend Back To Health In-Home Rehabilitation.

Describe your overall experience with Back To Health In-Home Rehabilitation:

*From my first day of therapy Marilyn was with me all the way. She offered innovative techniques to deal with some of my problems and made sure I understood what she was proposing. I chose NOT to have in-home therapy but preferred to go to the Back to Health facility where I could use the available equipment.*

*During every therapy session Marilyn was directly involved in my progress -- an enthusiastic cheer leader with a nice sense of humor.*

*I would recommend Marilyn unequivocally to anyone who needs therapy.*
